

# The Aerospace Corporation

## Emergency Procedures Quick Reference Guide

### Power Outage

#### IN THE EVENT OF A POWER OUTAGE:

- Aerospace has emergency generators that will provide power for emergency lighting and essential equipment.
- Report the power outage
- Help others in darkened areas move to safety
- Do not attempt to use elevators
  - If anyone is trapped inside an elevator, immediately call 911. Do not attempt to rescue them
- Shut down any laboratory equipment that could be hazardous if the power suddenly returns
- Keep laboratory refrigerators and ultra-low freezers closed during the outage
- For extended outages, message(s) will be sent out to employees with information and/or instructions
